Authority and Reference: Pursuant to the authority vested by Section 5630 of the Business and Professions Code, and to implement, interpret or make specific Sections 5670, 5671, and 5672 of the Business and Professions Code, the Board is considering changes to Division 26 of Title 16 of the California Code of Regulations as follows:

INFORMATIVE DIGEST / POLICY STATEMENT OVERVIEW

Business and Professions Code Section 5630 authorizes the Board to adopt, amend, or repeal rules and regulations, in accordance with the provisions of the Administrative Procedure Act, that are reasonably necessary in order to carry out the provisions of law relating to the practice of landscape architecture.

**Amend Section 2670 – Rules of Professional Conduct:**

The existing regulation, which became effective on September 11, 1997, sets forth the Board's rules of professional conduct for landscape architects. The regulation establishes five components of professional conduct that licensees should comply with (competence, full disclosure, informed consent, conflict of interest and copyright infringement). The regulation further establishes that a violation of any rule of professional conduct in the practice of landscape architecture constitutes a ground for disciplinary action.

This proposal would retain the Board's existing rules of professional conduct and do the following: 1) move subsection (a)(3) from the current language under a new Willful Misconduct subheading, subsection (b), to be consistent with the Board's rules of professional conduct for architects under California Code of Regulations, Title 16, Division 2, Section 160; 2) add a new

provision under Willful Misconduct, subsection (b)(2), that would require a landscape architect or a candidate for licensure to respond to the Board's requests for information and/or evidence within 30 days whenever the Board is conducting an investigation; 3) add new language under subsection (c)(2) that would require a landscape architect to respond in writing within 30 days to any request from the Board for information solicited in connection with a candidate's application for a license to practice landscape architecture and delete the requirement to report the candidate's education; and 4) make additional clarifying edits to the language.

With respect to the proposed additions to the language, the Board has determined that the new rules would improve the effectiveness of the Board's enforcement efforts and would benefit the public. In addition, this proposal adds clarifying language to the other rules of professional conduct.
